”

**Moving from
Organization to Organism**

June 7-9

Isha Yoga Center, India

**Are you a
business
leader looking
for a solution
to these
challenges?**

- Attracting and retaining talent
- Engaging employees effectively
- Managing a multi-generational workforce
- Remaining agile and responsive in an increasingly competitive and borderless world

About The Conclave

This conclave has been envisioned by Sadhguru around the key insight, "Human is NOT a Resource". Building on this insight, the conclave brings together thought leaders, business and HR heads to discuss practical steps to enable a paradigm shift from human beings as resources to human beings as possibilities. This shift is necessary for businesses to attract, retain and empower talent in an increasingly competitive and borderless world.

Why You Must Attend

- Crafted by Sadhguru and delivered by Industry experts, this novel initiative is designed based on a study of about 1500 CEOs and CXO, conducted over the last seven years
- An agenda designed to delve deeper into the nuances of creating agile, high performing and joyful organizations
- An opportunity to connect with industry thought leaders, and develop a support group
- A participant group comprised of CEOs, CXOs & CHROs to uniquely combine business & HR perspectives
- Access to technologies for inner wellbeing to create inspired, focused and agile human beings
- Creation of a transformation plan unique to you and your own organization with the assistance of the best minds in the industry as mentors

“

I'm heading the HR function. I was looking for the ways and means of retaining our talent. I find this program of great of significance especially for the unique insight that one takes away from this program. It's been really something exhilarating. I don't think any other program can give you this kind of perspective. Not even any business school in the country or even abroad.”

- N Shankar, GM, Power Grid Corporation of India Ltd.

*Whatever kind of business
you are into, ultimately,
there is only one business,
that is human wellbeing.
- Sadhguru*
